

# Healthiest Employers Inducts 2024 Hall of Fame Members

*Healthiest Employers® announced the 2024 class of Healthiest Employers Hall of Fame members, featuring 7 recipient organizations from across the United States.*

INDIANAPOLIS, INDIANA, UNITED STATES, May 20, 2024 /EINPresswire.com/ -- [Healthiest Employers®](#), the premier trusted awards program that recognizes people-first organizations, announced the 2024 class of Healthiest Employers Hall of Fame members, featuring seven recipient organizations from across the United States.

Since 2009, Healthiest Employers has awarded some of the top corporate wellness programs for their investments in employee health and well-being. The goal of Healthiest Employers is to be a resource for organizations focused on improving their employees' health and creating a community for networking and educational opportunities.

Throughout the program's history, 10,000 companies from over 45 districts across the country have applied for local recognition. These companies are also considered for national recognition in the Healthiest 100 Workplaces in America award.

Applications are scored using a rubric-style 1-100 scale. The assessment is comprised of six categories with yes/no, multiple-choice, and short-answer questions, with each question totaling .25-3 points. A Healthiest Employers Index (HEI) is assigned to each application to help it rank among companies of similar sizes.

In 2022, Healthiest Employers began the Hall of Fame to recognize companies that have repeatedly placed as one of the healthiest in both the district and national awards. For more information on these organizations, [visit the official Healthiest Employers announcement here](#).
