

# Navia Robotics and Nuwa Robotics Announce Partnership to Bring Service Robotics to Hospitality and Healthcare Industries

*Navia Robotics and Nuwa Robotics announce partnership aimed at transforming the hospitality and healthcare industries with advanced robotic solutions.*

LOS ANGELES, CALIFORNIA, UNITED STATES, May 21, 2024

/EINPresswire.com/ -- Navia Robotics and Nuwa Robotics, two leading innovators in the field of service robotics, are excited to announce a strategic partnership aimed at transforming the hospitality and healthcare industries with advanced robotic solutions. This collaboration combines the strengths and expertise of both companies to deliver state-of-the-art service robots that enhance operational efficiency, guest experience, patient service and care.

“

We are thrilled to partner with Nuwa Robotics, a company that shares our vision for the future of service robotics. Together, we will be able to offer unparalleled robotic solutions for new industries”

*Peter Kim, CTO of Navia Robotics*

Navia Robotics, renowned for its extensive expertise across various industries, has been a trailblazer in deploying cobots that seamlessly integrate into various service environments. Their robots are designed to perform a multitude of tasks such as room service delivery, cleaning, and guest assistance in hotels, as well as transportation of medical supplies and patient support in healthcare settings.

Nuwa Robotics, a pioneer in creating interactive and intelligent robots, has a strong foothold in developing humanoid robots that excel in communication and

interaction. Nuwa's robots are equipped with sophisticated AI that enables them to understand and respond to human emotions, making them ideal for roles that require a high level of engagement, such as concierge services and patient interaction.

## Key Highlights of the Partnership:

**Integrated Solutions:** The partnership will focus on developing integrated robotic solutions that leverage Navia's expertise in tailoring deployment and Nuwa's interactive AI technology. These solutions aim to provide a seamless and engaging experience for users in both the hospitality and medical sectors.

**Enhanced Operational Efficiency:** By combining their respective technologies, Navia and Nuwa will create robots capable of performing a wider range of tasks with greater precision and efficiency. This will enable businesses to streamline their operations, reduce costs, and improve service delivery. Models such as [Kebbi](#) and [Collibot](#) will be customized for the specific needs of clients in various lines of business.

**Improved Customer and Patient Experience:** The collaborative robots will enhance customer experiences in hotels by offering personalized and efficient service, while in medical settings, [hospital robots](#) will support healthcare professionals and provide comforting interaction to patients, improving overall patient care and satisfaction.

**Research and Development:** The partnership will invest in joint R&D initiatives to push the boundaries of service robotics. This includes exploring new applications, improving existing technologies, and ensuring the highest standards of safety and reliability while tackling scenarios others find too challenging.

## Executive Quotes:

“We are thrilled to partner with Nuwa Robotics, a company that shares our vision for the future of service robotics. Together, we will be able to offer unparalleled robotic solutions that not only meet the needs of our customers but also set new standards in the industry,” said Peter Kim, CTO of Navia Robotics.

Navia Robotics Logo

“This partnership marks a significant milestone in the evolution of service cobotics. By combining our hardware expertise with Navia’s, we are poised to deliver robots that are not only highly functional but also deeply intuitive and engaging,” added Leo Guo, CEO of Nuwa Robotics.

## About Navia Robotics

Navia Robotics is a robotics development company that possesses vast expertise in both automation hardware and software. With a deep understanding of the inefficiencies prevalent in the hospitality and medical industries, both before and during the COVID-19 pandemic, Navia Robotics collaborated closely with numerous facilities operating under diverse business models and located in different geographical areas and serving a variety of industries. This allowed them to meticulously refine their service to support the market's needs.
