

Mohegan streamlines its legal document processing with Contracts 365® contract management software.

NEWBURYPORT, MA, UNITED STATES, May 23, 2024 /EINPresswire.com/ -- [Contracts 365, Inc.](#), the leading provider of contract management software for companies who run Microsoft 365, is proud to announce its newest relationship with Mohegan, the Connecticut-based gaming and entertainment company.

Contracts 365 stood out for a couple different reasons.”

Stephen Costa, Corporate Counsel

“Mohegan is a true pioneer in the gaming and entertainment industry,” said Russ Edelman, CEO of Contracts 365, Inc. “For companies that operate in highly regulated industries, contracts are mission critical. The fact that Mohegan put their trust in Contracts 365, speaks volumes to me and we are truly honored to be working

with them.”

Since opening its flagship property, Mohegan Sun, in Uncasville, Connecticut in 1996, Mohegan has grown to become one of the world’s premier gaming and entertainment companies. Today, Mohegan operates properties across the U.S.—in Pennsylvania, New Jersey, Washington state, and Nevada—as well as international locations in Ontario and South Korea, and three online gaming sites.

Mohegan began looking at contract management software vendors as their operations grew, and their legal team recognized the need for better processes to handle their growing contract needs.

For Mohegan, document security and control were of the utmost concern. Stephen Costa, corporate counsel for Mohegan, noted that, when they put together a shortlist of vendors, “Contracts 365 stood out for a couple different reasons. One was the fact all our data was stored on our servers. With Contracts 365, we always have control over the data—that was a huge plus.”

Contracts 365 is purpose-built for companies that operate in Microsoft computing environments. That means the Contracts 365 application was designed to fully leverage Mohegan’s existing IT infrastructure and they benefit from the significant annual investment that Microsoft makes in

cloud infrastructure and cybersecurity.

Mohegan is still in the early stages of the full rollout of Contracts 365, but the organization's response to the new system has been noteworthy. Prior to the new contract management solution, the legal team would typically handle approximately 50–60 contracts per month. Now they can process 80–90. That translates to a greater than 60% increase in contract processing ability without increasing headcount.
