effective: each video starts with the phrase being taught in English, such as "How to say 'Happy Mother's Day' in Haitian Creole." This is followed by the Haitian Creole translation "Bòn Fèt Manman" displayed on the screen. Given that Google Translate no longer supports voice input

for Haitian Creole, the YouTube channel, @yourhaitiantranslator, and tailored services provided by Your-Haitian-Translator fill a significant gap. Learners can now hear authentic Haitian Creole pronunciation by a native speaker, which has not been available on major translation platforms for over four years.

"My YouTube Channel is a valuable resource for anyone eager to learn Haitian Creole," says Swans Paul, the founder of Your-Haitian-Translator. "With videos teaching phrases such as "I miss you" ("Mwen sonje ou"), "Call me when you're available" ("Rele mwen lè ou disponib"), and "What do you want?" ("Kisa ou vle?"), the channel covers a wide range of practical expressions that can be useful in real-life situations.

Your-Haitian-Translator also addresses specific voice requests. For instance, a prospective adoptive parent received assistance in pronouncing a child's name correctly in Haitian Creole - at no cost. Similarly, a kindergarten teacher integrating Haitian students into a graduation ceremony found the tailored pronunciation services invaluable. These personalized services highlight the channel's commitment to catering to unique needs that machine translation cannot fulfill.

"Haitian Heritage Month is an important time to celebrate the positive impact that Haiti has had on modern history as the country that supported Venezuela, Colombia, Ecuador, and Greece in their quest for independence," Swans states. "By providing these video lessons, we hope to make Haitian Creole more accessible and enjoyable to learn for everyone."

Swans is a firm believer that learning a new language offers numerous benefits beyond communication. Learning Haitian Creole can enhance cognitive abilities, improve memory, and increase creativity. Additionally, speaking Haitian Creole can open up trade opportunities, allowing individuals to connect with a broader range of customers and collaborators in Haiti, in Chile, in Brazil, in Mexico, in France, in the Dominican Republic, in Cuba and other countries with large Haitian communities.

In fact, speaking Haitian Creole can provide access to approximately 14 million speakers worldwide, including 200,000 in Canada. Speaking Haitian Creole also gives access to a wealth of knowledge that is not necessarily written as Haitian Creole is an evolving language and orality is still a significant aspect in how information is transmitted in the culture.
