

PrimeXBT to democratise financial markets with total revamp and upgraded product offering

MAJURO, MARSHALL ISLANDS, May 22, 2024 /EINPresswire.com/ -- Leading Cryptocurrency broker, [PrimeXBT](#), has just launched a total revamp of its brand, website, and all-in-one platforms, as part of its vision to “democratise the financial markets” and “make investing available to all”.

PrimeXBT's new look and feel debuts alongside equally substantial upgrades to the broker's product offering, including lower fees across 100+ CFD markets, increased leverage on Crypto CFDs, and new fiat payment options, aiming to offer traders more for less. This is in addition to offering traders the ability to buy popular Cryptocurrencies like BTC, ETH, USDT, and USDC outright. The revamp is accompanied by a campaign simply titled “We listen”, where the Crypto broker reveals that a lot of the upgrades were inspired by client feedback.

Additional upgrades to PrimeXBT's offering include a substantially improved user experience across its website, webtrader, and app. The revamped PrimeXBT website now also features a 'News' section, so traders can get the latest news and insights from the Crypto world, and other CFD markets. Finally, the broker also debuted a new Partnership Program. Crypto Affiliates can earn up to \$2,500 in CPA per client, and Introducing Brokers (IBs) can get up to 50% RevShare, making PrimeXBT's the most competitive program currently on the market.

The Crypto broker's core brand values are clearly displayed on the upgraded PrimeXBT website; innovation, client-focus, empowerment, and transparency. All four are in clear focus with this wide-reaching revamp. The addition of new tools to the broker's webtrader and app attest to innovation, while the simplified user experience empowers traders of all levels to take control of their finances. Making the language used across its website and platforms as clear and easy-to-understand as possible shows transparency, while helping build trust with their users. Finally, all of the changes and upgrades clearly reflect PrimeXBT's client-focus, incorporating user feedback

to improve the overall experience on offer.

Users can learn more about the products and services PrimeXBT offers.
