

HDPE Price Trend, Index, Historical Chart Analysis, Prices, Demand, News 2024 and Forecast

BROOKLYN, NEW YORK, UNITED STATES, May 22, 2024

/EINPresswire.com/ -- The latest report by IMARC, titled "HDPE Market Analysis, Demand, Historical Trends and Forecast 2024-2030,"

delivers a comprehensive analysis of HDPE prices on a global and regional scale, highlighting the pivotal factors contributing to price changes. This detailed examination includes spot price evaluations at key ports and an analysis of pricing structures, such as Ex Works, FOB, and CIF, across North America, Europe, Asia Pacific, Latin America, and the Middle East and Africa.

This detailed examination includes spot price evaluations at key ports and an analysis of pricing structures, such as Ex Works, FOB, and CIF, across North America, Europe, Asia Pacific, Latin America, and the Middle East and Africa.

Key highlights from the report include:

- Global Market: 1230 USD/MT
- North America: 954 USD/MT
- Europe: 1238 USD/MT
- Asia: 1048 USD/MT
- Middle East and Africa: 1068 USD/MT

Subscription options:

- Annual Subscription - \$1500
- Quarterly Subscription - \$400
- Monthly Subscription - \$120

The study delves into the factors affecting HDPE price variations, including alterations in the cost of raw materials, the balance of supply and demand, geopolitical influences, and sector-specific developments.

The report also incorporates the most recent updates from the market, equipping stakeholders with the latest information on market fluctuations, regulatory modifications, and technological progress. It serves as an exhaustive resource for stakeholders, enhancing strategic planning and forecast capabilities.

Report ID: IMARC-23-00000000

The HDPE market in various regions experienced fluctuations in the fourth quarter of 2023 due to several factors. In North America, prices surged in October, stimulated by increased feedstock ethylene prices and robust demand from the construction, packaging, and automotive industries. However, towards the end of the quarter, a reduction in the market occurred, influenced by declining upstream naphtha and crude oil prices, as well as subdued demand across the globe. Despite steady domestic demand, reduced export inquiries from Asian traders and disruptions in supply, such as restrictions in the Panama Canal due to low water levels, contributed to the downward trend. Overall, the HDPE market trajectory was shaped by shifts in feedstock prices, global demand dynamics, and supply chain disruptions.

The global HDPE market size reached \$10.5 billion in Q4 2023. IMARC Group expects the market to reach \$11.5 billion by 2030, growing at a CAGR of 3.5%. Moreover, in the Asia-Pacific region, HDPE prices followed a mixed trend in the last quarter of 2023. While Indian and Chinese markets declined initially, they rebounded in December. Conversely, Singapore, South Korea, and Japanese markets witnessed a declining approach. Factors influencing prices included fluctuations in feedstock ethylene costs, refinery maintenance activities in the Middle East impacting supply, and changes in international crude oil prices. Additionally, operational adjustments and plant shutdowns, such as Lianyungang Petrochemical in China, contributed to price fluctuations.

Furthermore, in Europe, prices inclined in October but declined for the rest of the quarter due to lackluster economic conditions, high product supplies, and low demand from downstream sectors. Producers faced cost pressures, leading to further price increments. Similarly, in the Middle East, prices initially rose due to sustained demand but declined marginally towards the end of the quarter, influenced by easing feedstock ethylene and crude oil costs, alongside bearish demand sentiments from Asian and European markets.

Meanwhile, South America experienced bearish prices attributed to slow domestic demand from the construction and automotive sectors, coupled with decreased feedstock ethylene costs. Overall, the HDPE market in the last quarter was shaped by a complex interplay of global economic conditions, regional demand dynamics, and fluctuations in feedstock prices.

Report Key Findings and Key Findings:

The report delivers the following key findings, alongside a comprehensive breakdown of prices by region:

- HDPE Prices
- [HDPE Price Trend](#)
- HDPE Demand & Supply
- HDPE Market Analysis
- Demand Supply Analysis by Type
- Demand Supply Analysis by Application
- Demand Supply Analysis of Raw Materials
- HDPE Price Analysis
- HDPE Industry Drivers, Restraints, and Opportunities
- HDPE News and Recent developments
- Global Event Analysis
- List of Key Players

Regional Breakdown:

- Asia Pacific: China, India, Indonesia, Pakistan, Bangladesh, Japan, Philippines, Vietnam, Thailand, South Korea, Malaysia, Nepal, Taiwan, Sri Lanka, Hongkong, Singapore, Australia, and New Zealand*
- Europe: Germany, France, United Kingdom, Italy, Spain, Russia, Turkey, Netherlands, Poland, Sweden, Belgium, Austria, Ireland, Switzerland, Norway, Denmark, Romania, Finland, Czech Republic, Portugal and Greece*
- North America: United States and Canada
- Latin America: Brazil, Mexico, Argentina, Columbia, Chile, Ecuador, and Peru*
- Middle East & Africa: Saudi Arabia, UAE, Israel, Iran, South Africa, Nigeria, Oman, Kuwait, Qatar, Iraq, Egypt, Algeria, and Morocco*

Other Key Findings:

- [Natural Gas Price Trend](#)
- [Soybean Oil Price Trend](#)

IMARC: A leading market research company that offers management strategy and market research solutions.

Contact Us:

IMARC is a leading market research company that offers management strategy and market

research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.

Our offerings include comprehensive market intelligence in the form of research reports, production cost reports, feasibility studies, and consulting services. Our team, which includes experienced researchers and analysts from various industries, is dedicated to providing high-quality data and insights to our clientele, ranging from small and medium businesses to Fortune 1000 corporations.
