

TuxCare to Provide Long-Term Security for ProComputers Customers

PALO ALTO, CALIF., USA, May 28, 2024 /EINPresswire.com/ -- [TuxCare](#), a global innovator in enterprise-grade cybersecurity for Linux, today announced it has partnered with ProComputers, a forward-thinking cloud solution provider, to secure the CentOS 7-based systems of ProComputers customers.

TuxCare's [Extended Lifecycle Support \(ELS\) for CentOS 7](#) enables

ProComputers to continue to provide users with the peace of mind that its AWS and Azure Marketplace offerings will enjoy ongoing protections despite the upcoming end of life for CentOS 7 in June.

"We're pleased that organizations such as ProComputers recognize the immense value that TuxCare's ELS for CentOS 7 brings to their business," said Michael Canavan, Chief Revenue Officer at TuxCare. "This vital support helps ensure that ProComputers' operations remain uninterrupted and their users unfazed by the end of life of CentOS 7."

"With TuxCare's CentOS 7 ELS, ProComputers' customers receive timely security updates, ensuring their CentOS 7 virtual machines remain protected against emerging threats beyond CentOS 7 EOL, announced for June 30, 2024." said Adrian Pascalau, Solution Architect at ProComputers. "Overall, TuxCare ELS provides our customers with peace of mind, enabling them to confidently continue using CentOS 7 while they plan an upgrade to a newer version or prepare a transition to a different Linux distribution."
