

Packaging Resins Market to Set Phenomena Growth During 2024 to 2032

The global packaging resins market is growing due to increased demand for packaged goods across various sectors

WILMINGTON, DELAWARE, UNITED STATES, May 23, 2024 /EINPresswire.com/ -- According to the report, the global packaging resins market was valued at \$288.9 billion in 2022 and is projected to reach \$587.3 billion by 2032, growing at a CAGR of 7.4% from 2023 to 2032.

Packaging resins, including polymers like Polyethylene (PE), Polypropylene

Packaging Resins Industry Trends

(PP), Polyvinyl Chloride (PVC), and Polystyrene, are integral to various industries due to their versatile properties. These materials can be molded, extruded, or converted into numerous shapes to create packaging products such as bottles, containers, and films.

The global packaging resins market is experiencing growth due to several factors such as growing demand from the food and beverages industry and wide usage for milk jugs and other containers."

David Correa

The global packaging resins market is growing due to increased demand for packaged goods across various sectors, where packaging resins ensure product safety, quality, and preservation. However, fluctuating raw material prices hinder market growth to some extent. Growth in eco-friendly packaging materials presents

lucrative opportunities for market expansion.

- Increase in demand for packaged goods across various sectors
- Technological advancements in resin manufacturing

- Growth in eco-friendly packaging materials

- Fluctuating raw material prices of packaging resin

By Type: The High-Density Polyethylene (HDPE) segment held the highest market share in 2022, accounting for almost one-third of global revenue. HDPE's versatility in forming various packaging products contributes to its dominance. However, the Polystyrene (PS) segment is expected to exhibit the highest CAGR of 8.2% from 2023 to 2032 due to its impact resistance, low thermal conductivity, and cost-effectiveness.

By Application: The healthcare segment, which held the highest market share in 2022, is projected to grow at the highest CAGR of 8.0% from 2023 to 2032. This growth is driven by the use of packaging resins in storing and transporting medical devices, pharmaceuticals, and other healthcare products. The food and beverage segment also held a significant market share in 2022.

By Region: Asia-Pacific held the highest market share and is the fastest-growing region, accounting for around two-fifths of global revenue. Economic growth, changing consumer lifestyles, and increased e-commerce activities drive the demand for packaging resins in this region.

- SABIC
- BASF SE
- BOREALIS AG
- BRASKEM
- CHINA PETROCHEMICAL CORPORATION
- EXXON MOBIL CORPORATION
- INEOS
- LYONDELLBASELL INDUSTRIES HOLDINGS B.V.
- RELIANCE INDUSTRIES LIMITED
- MITSUBISHI CHEMICAL CORPORATION

These players employ strategies such as new product launches, collaborations, expansions, joint ventures, and agreements to maintain market dominance and expand their market share. The report provides detailed analyses of these key players' business performance, product portfolios, and strategic moves.

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
