

# Hidalgo County, TX Modernizes Budget Operations By Expanding OpenGov Partnership

*The platform's integration with accounting software is expected to eliminate repetitive data entry, while dashboards promise more accessible financial reports.*

TEXAS, UNITED STATES, May 28, 2024

/EINPresswire.com/ -- Hidalgo County, Texas, confronted with challenges in integrating financial data and inefficient capital planning, required a more flexible fiscal management system. The County found its solution by expanding its current partnership with [OpenGov](#), the leader in software for our nation's local governments.

As a critical hub for governmental operations in South Texas, Hidalgo County was slowed down by manual processes and hard-to-find financial reports. In its quest for efficiency, the County sought a platform that could seamlessly integrate with other software, enhance capital project tracking, and empower user-driven customization. [OpenGov Budgeting & Planning](#) distinguished itself with its comprehensive suite of tools designed to streamline operations and improve fiscal transparency.

With the adoption of OpenGov Budgeting & Planning, Hidalgo County can anticipate a significant transformation in how financial and capital resources are managed. The platform's nightly integration with its accounting software is expected to eliminate repetitive data entry and reduce errors, while its customizable dashboards promise clearer, more accessible financial reports. Furthermore, the ability for departments to independently adjust and report on their budgets is likely to foster greater accountability and efficiency across all levels of the County's operations.

Hidalgo County joins more than 1,900 public sector organizations leveraging OpenGov to revolutionize work processes with cloud-based software designed specifically for the needs of government.

## About OpenGov

OpenGov is the leader in modern cloud software for cities, counties, state agencies, and special districts. With a mission to power a more effective and accountable government, OpenGov

serves more than 1,900 public sector leaders and their organizations. OpenGov is built exclusively for the unique budgeting and planning, accounting, permitting and licensing, procurement, asset management, and tax and revenue needs of the public sector. The OpenGov Cloud empowers organizations to operate more efficiently, adapt to change, and strengthen trust with the communities they serve.
