The Local Community Development Initiative (LCDI) Program works with local homeless shelters to receive currently unhoused individuals and puts them through a 6-month accelerator program in which our non-profit covers all expenses, provides housing for the next 6-months,

and provides career consultants, financial advisors, and an AF Case Manager to assist the Candidate through the program. The intent is that by providing funding for trade school, certifications, etc. we will assist our Candidates to get a job within 6-months and become self-sufficient going forward.

The Amalfi Primary School is a future planned school to be built in Arusha, Tanzania, and supports the Maasai Tribe. Currently, the local tribe is over 5 kilometers away from the nearest school and the village does not have reliable roads or methods of transportation, therefore most of the villagers would never be properly educated. Therefore, by breaking ground on our Primary School in 2024, we will be able to provide this community with a clear path to a secure education.
