The Major Players Covered in this Report: CleverPet

(United States), Whistle (United States), Petcube (Ukraine), iFetch LLC (United States), Petnet (Hong Kong), Dogtra (United States), IceRobotics (United Kingdom), Tractive (Austria), DOGVACAY (United States), Animo (Belgium), Pawscout (Canada),

Definition:

"Pet tech" is a broad term that refers to technology designed and developed for use with pets, addressing various aspects of their well-being, health, entertainment, and overall care. With advancements in technology, pet owners now have access to a range of innovative products and services to enhance their interactions with animals.

Market Trends:

• There's a growing trend towards smart pet products that utilize technology to enhance pet care, monitoring, and interaction. These products include smart pet feeders, automated litter boxes, GPS trackers, pet activity monitors, and interactive toys that

### Market Drivers:

• The trend towards pet humanization, where pets are increasingly treated as family members, drives the demand for advanced pet care products and services. Pet owners are willing to invest in technology-driven solutions to provide their pets with the best

Market Opportunities:

• There's an opportunity for pet tech companies to develop personalized pet care solutions tailored to individual pets' needs, preferences, and health conditions. Personalized nutrition plans, customized training programs, and targeted health monitoring can
