Some of the key facts of the Common Warts Market Report:

The Common Warts market size was valued approximately USD 725 million in 2022 and is anticipated to grow with a significant CAGR during the study period (2020-2034)

According to DelveInsight's evaluation, in 2022, the total number of diagnosed prevalent cases of common warts in the 7MM was estimated to be around 14,964,357 cases.

In the 7MM, the United States accounted for the highest number of diagnosed prevalent cases of common warts in 2022, totaling approximately 2,824,294 cases. This represented nearly 19% of the total diagnosed prevalent cases in the 7MM.

In 2022, the EU4 countries and the UK collectively had around 10,779,827 diagnosed prevalent cases of common warts.

This constituted the majority of cases, covering an estimated 72% of the total cases in the 7MM.

In the EU4 countries and the UK, Germany had the highest total number of diagnosed prevalent cases of common warts in 2022, totaling approximately 2,628,032 cases. This was followed by France and the UK, with approximately 2,247,383 and 2,184,658 cases respectively.

Key Common Warts Companies: KinoPharma Inc., Veradermics, Inc., Labo'Life, Merck Sharp & Dohme LLC, Shanghai Zerun Biotechnology, X4 Pharmaceuticals, Nielsen BioSciences, Verrica Pharmaceutical, Kino Pharma/ Iwaki Pharmaceutical, Aclaris Therapeutics, Inc., KinoPharma Inc., ViroXis Corporation, Maruho Co., Ltd., Veradermics, Inc., Graceway Pharmaceuticals, LLC, MEDA Pharma, LEO Pharma, and others

Key Common Warts Therapies: KNP2002, VDMN-21, 2LVERU® or 2LVERU® JUNIOR, V503, Zerun HPV-9, Mavorixafor, CANDIN, VP-102, FIT039, A-101, KNP2002, 10% EISO, CLS006, VDMN-21, Resiquimod, Imiquimod, Picato, and others

The Common Warts epidemiology based on gender analyzed that the diagnosed prevalent cases were observed to be same for male and female in the 7MM

The Common Warts market is expected to surge due to the disease's increasing prevalence and awareness during the forecast period. Furthermore, launching various multiple-stage Common Warts pipeline products will significantly revolutionize the Common Warts market dynamics.

Common Warts Overview

Common warts, also known as verruca vulgaris, are noncancerous skin growths caused by the human papillomavirus (HPV). They are typically rough to the touch and may appear as small, grainy growths on the skin.

Common Warts Epidemiology

The epidemiology section provides insights into the historical, current, and forecasted epidemiology trends in the seven major countries (7MM) from 2020 to 2034. It helps to recognize the causes of current and forecasted trends by exploring numerous studies and views of key opinion leaders. The epidemiology section also provides a detailed analysis of the diagnosed patient pool and future trends.

Common Warts Epidemiology Segmentation:

The Common Warts market report proffers epidemiological analysis for the study period 2020–2034 in the 7MM segmented into:

Total Prevalence of Common Warts

Prevalent Cases of Common Warts by severity

Gender-specific Prevalence of Common Warts

Diagnosed Cases of Episodic and Chronic Common Warts

Common Warts Drugs Uptake and Pipeline Development Activities

The drugs uptake section focuses on the rate of uptake of the potential drugs recently launched in the Common Warts market or expected to get launched during the study period. The analysis covers Common Warts market uptake by drugs, patient uptake by therapies, and sales of each drug.

Moreover, the therapeutics assessment section helps understand the drugs with the most rapid uptake and the reasons behind the maximal use of the drugs. Additionally, it compares the drugs based on market share.

The report also covers the Common Warts Pipeline Development Activities. It provides valuable insights about different therapeutic candidates in various stages and the key companies involved in developing targeted therapeutics. It also analyzes recent developments such as collaborations, acquisitions, mergers, licensing patent details, and other information for emerging therapies.

Common Warts Therapies and Key Companies

KNP2002: KinoPharma Inc.

2LVERU® or 2LVERU® JUNIOR: Labo'Life

V503: Merck Sharp & Dohme LLC

Zerun HPV-9: Shanghai Zerun Biotechnology

Mavorixafor: X4 Pharmaceuticals

CANDIN: Nielsen BioSciences/Maruho

VP-102: Verrica Pharmaceutical

FIT039: Kino Pharma/ Iwaki Pharmaceutical

A-101: Aclaris Therapeutics, Inc.

KNP2002: KinoPharma Inc.

10% EISO: ViroXis Corporation

CLS006: Maruho Co., Ltd.

VDMN-21: Veradermics, Inc.

Resiquimod: Graceway Pharmaceuticals, LLC

Imiquimod: MEDA Pharma

Picato: LEO Pharma

Common Warts Market Strengths

The rising prevalence of warts encourages companies in the life sciences industry to focus on research and development of new drugs for warts treatment. There is a continuous need for new, innovative therapeutic approaches for better treatment outcomes.

An increase in emerging new drugs for the treatment of warts will lead to better patient outcomes in the coming years.

Common Warts Market Opportunities

Recent studies have shown the safe and efficacious role of Zinc supplementation in warts clearance, particularly for patients who have not responded to treatments previously.

Secondary research on the warts therapeutics market suggests that the market is saturated with limited drug opportunities providing the key Pharma players a successful domain to work with utmost robustness

Scope of the Common Warts Market Report

Study Period: 2020–2034

Coverage: 7MM [The United States, EU5 (Germany, France, Italy, Spain, and the United Kingdom), and Japan]

Key Common Warts Companies: KinoPharma Inc., Veradermics, Inc., Labo'Life, Merck Sharp & Dohme LLC, Shanghai Zerun Biotechnology, X4 Pharmaceuticals, Nielsen BioSciences, Verrica Pharmaceutical, Kino Pharma/ Iwaki Pharmaceutical, Aclaris Therapeutics, Inc., KinoPharma Inc., ViroXis Corporation, Maruho Co., Ltd., Veradermics, Inc., Graceway Pharmaceuticals, LLC, MEDA Pharma, LEO Pharma, and others

Key Common Warts Therapies: KNP2002, VDMN-21, 2LVERU® or 2LVERU® JUNIOR, V503, Zerun HPV-9, Mavorixafor, CANDIN, VP-102, FIT039, A-101, KNP2002, 10% EISO, CLS006, VDMN-21, Resiquimod, Imiquimod, Picato, and others

Common Warts Therapeutic Assessment: Common Warts current marketed and Common Warts emerging therapies

Common Warts Market Dynamics: Common Warts market drivers and Common Warts market barriers

Competitive Intelligence Analysis: SWOT analysis, PESTLE analysis, Porter's five forces, BCG Matrix, Market entry strategies

Common Warts Unmet Needs, KOL's views, Analyst's views, Common Warts Market Access and Reimbursement
