"Collaborating with Roy Wang has been an incredible opportunity," said Jerry Wu, CEO of MetaHomes. "His artistic vision and our technological innovations create a unique synergy between art and real estate. This partnership reflects our ongoing commitment to cultural enrichment and technological advancement."

Mr. Wang echoed this sentiment, stating, "Participating in this event with MetaHomes has been extraordinary. Dubai's multicultural character provides an ideal backdrop for artistic exploration. I am excited to see how our combined efforts will further enhance the real estate landscape."

This awe-inspiring artwork, set against the stunning backdrop of the Dubai skyline, symbolized the deep friendship between China and the United Arab Emirates. Using car lights from a fleet of cars provided by GAC Motor, as his unique medium and the vast canvas of the open space next to the Dubai Canal, Roy Wang, realized a 6,000-square-meter China-UAE light-painted dragon. Recognized as China's premier light painting artist and holder of three Guinness World Records, his artistic achievements have garnered him a prestigious 10-year Golden Visa from the UAE government, an honor reserved for significant cultural and artistic contributors.

MetaHomes' participation in this groundbreaking event underscores its commitment to fostering a vibrant and culturally rich community in Dubai. This collaboration served as a powerful testament to the transformative power of art and innovation in uniting cultures.
