

CEPTES Announces Updates to DataArchiva: Data Archiving for Salesforce Storage & Compliance on Salesforce AppExchange

CEPTES customers can now benefit from a global search on both archived & unarchived data & also run analytics on archived data.

BENGALURU, KARNATAKA, INDIA, May 29, 2024 /EINPresswire.com/ -- CEPTES today announced it has updated DataArchiva External Archive application on Salesforce AppExchange, a leading enterprise marketplace for partner apps and experts, providing customers new ways to perform a global search on both archived and unarchived data and analytics on the archived data. DataArchiva is an advanced [data archiving application for Salesforce](#) that helps move historical data from Salesforce to 100% customer-owned and managed cloud storage.

DataArchiva is currently available on AppExchange at <https://appexchange.salesforce.com/appxListingDetail?listingId=a0N4V00000FgvECUAZ>.

DataArchiva External Archive

DataArchiva offers a complete suite of [data archive, backup, and seeding solutions](#) through multiple applications for Salesforce to meet complex data management needs. With the introduction of global search in the external archiving application, customers can use simple texts to find any particular data from both archived (external system) or unarchived (Salesforce) locations. This will help them save time and boost accessibility. DataArchiva also introduced analytics on archived data. Now customers can fetch reports easily from the archived data just like they fetch reports on Salesforce live data. This will make reporting consistent across data & systems without impacting user experience.
