Robotic Process Automation In Healthcare Global Market Report 2024 : Market Size, Trends, And Global Forecast 2024-2033

The Business Research Company's "Robotic Process Automation In Healthcare Global Market Report 2024 is a comprehensive source of information that covers every facet of the market. As

“

The Business Research Company has updated its global market reports, featuring the latest data for 2024 and projections up to 2033”

*The Business Research
Company*

per TBRC's market forecast, the robotic process automation in healthcare market size is predicted to reach \$3.46 billion in 2028 at a compound annual growth rate (CAGR) of 15.1%.

The growth in the robotic process automation in healthcare market is due to the increasing adoption of electronic health records (EHR). North America region is expected to hold the largest [robotic process automation in healthcare market share](#). Major players in the robotic process automation in healthcare market include

International Business Machines Corporation, EnterBridge, NICE Ltd., Thoughtonomy Limited, Datamatics Global Services Limited.

[Robotic Process Automation In Healthcare Market Segments](#)

- By Solution: Software, Services, Implementation, Support And Maintenance, Training And Consulting

- By Operations: Rule-based Operation, Knowledge-based Operation
- By Application: Claims Management, Clinical Documentation, Billing And Compliance Management, Appointment Scheduling, Workflow Management
- By Geography: The global robotic process automation in healthcare market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
