

# National Lipid Association Unveils New Mission to Advance Lipidology and Cardiometabolic Health

LAS VEGAS, NV, UNITED STATES, May 31, 2024 /EINPresswire.com/ -- The [National Lipid Association](#) (NLA) is proud to announce its renewed mission: "To enhance the science and practice of lipidology and promote optimal cardiometabolic health." This updated mission underscores the NLA's commitment to advancing the field of lipidology and improving health outcomes for individuals with lipid disorders.

Our new mission reflects the National Lipid Association's unwavering commitment to enhancing the science and practice of lipidology."

*Daniel Soffer, MD, FNLA,  
President of the National Lipid  
Association*

Lipidology, the study of lipids and lipoproteins, plays a crucial role in understanding and managing conditions such as hyperlipidemia, atherosclerosis, and other cardiometabolic diseases. With cardiovascular disease remaining the leading cause of death worldwide, the NLA's renewed focus aims to drive innovative research, enhance clinical practices, and foster comprehensive education and training in lipidology.

"Our new mission reflects the National Lipid Association's unwavering commitment to enhancing the science and practice of lipidology," said Dr. Daniel Soffer, President of the NLA. "By promoting optimal cardiometabolic health, we aim to make a significant impact on the lives of millions affected by lipid disorders and related conditions."
