provides detailed guidance for each month, including over 60 areas of wedding planning. The app features over 600 videos of the wedding planner explaining everything, such as venue selection, vendor management, RSVPs, budget tracking sheets, email templates for contacting suppliers, catering, flowers, ceremony, attire, timeline sheets, stationery design templates, and more. The app also allows couples to source suppliers without paying hefty commissions, ensuring transparency and confidence in the vendor selection process.

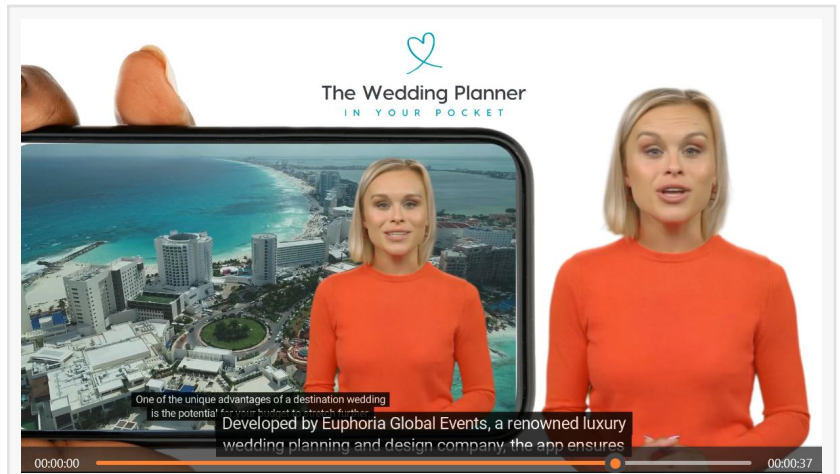

The Wedding Planner App is accessible to all couples, regardless of their budget. It also serves as a valuable asset for those who have hired a traditional wedding planner. The app offers a wealth of resources and step-by-step guidance, making it an indispensable tool for anyone embarking on the journey to marital bliss.

The app is especially useful for the 70% or more of couples who cannot afford the average cost of a wedding planner, which is \$1,850 according to WeddingWire, or who prefer not to use one. The app is available for just \$19.99 per month or \$199 per year.

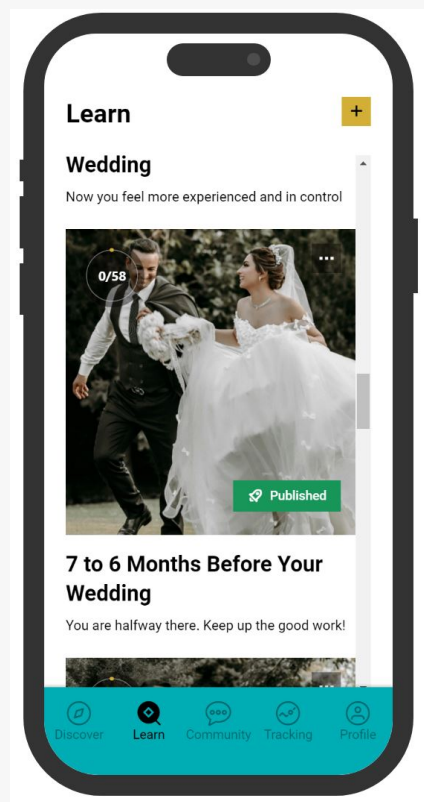

Additionally, the app offers affiliate options for businesses in the wedding industry.

Phase 2 of the app is already in progress and will allow you to select from a variety of wedding planners. It will also feature a guest blog section where you can learn from leading wedding suppliers who will share ideas and tips.
