Players can leverage the value chain analysis and porter's five forces analysis offered in the report to strengthen their position in the EHealth market.

“

The eHealth market encompasses digital health solutions, telemedicine, and health IT systems, aiming to enhance healthcare delivery and patient management.”

exactitudeconsultancy

The global EHealth market size is USD 69.69 Billion in 2020 and is expected to grow till USD 455.60 Billion by 2030, at a Compounded annual growth rate (CAGR) of 23.45%.

Global eHealth Market Dynamics

This section deals with understanding the market drivers, advantages, opportunities, restraints, and challenges. All of this is discussed in detail below:

Drivers

Increasing prevalence of chronic diseases

With the rising economic growth, people are more interested in long-term health and wellness. Diabetes patients need devices to monitor their sugar levels, check pregnancy, increase the demand for pregnancy strips, and monitor blood pressure. There is a growing demand for devices such as blood glucose monitors, sphygmomanometers, and others. Home healthcare management service helps manage chronic diseases such as diabetes, heart failure or chronic obstructive pulmonary disease (COPD), and cancer. Its service includes nursing service, hospice service, and medication dispensing.
