

# Unwrapping the H.A.M.™ Dating Phenomenon: The Rise of Hot Asian Men (HAM™)

*New survey shows East Asian men are increasingly seen as desirable partners for their intelligence and family values, breaking down dating stereotypes*

OAKLAND, CA, UNITED STATES, June 13, 2024 /EINPresswire.com/ -- Los Angeles, CA - [Ancient Wisdom Modern Love™](#), a premier matchmaking agency founded by expert matchmaker Cassindy Chao, has unveiled groundbreaking insights into the dating landscape with its recent survey on dating preferences and perceptions of East Asian men. Titled "The H.A.M.™ Dating Phenomenon: Breaking Down Stereotypes and Embracing Diversity," the survey results challenge stereotypes and reveal a growing trend in modern romance.

The survey, conducted among 118 US women from diverse racial and ethnic backgrounds, provides a comprehensive look into the perceptions and preferences surrounding East Asian men. Notably, the participant sample skewed towards individuals with higher income and education levels, reflecting a segment with discerning tastes in romantic partners.

## Key Findings:

**Positive Perceptions:** Words like "Smart," "Well-educated," "Handsome/Attractive," and "Family-Oriented" topped the list of descriptors for East Asian men as romantic partners. These qualities resonate strongly with respondents, signaling a departure from outdated stereotypes.

**Growing Appeal:** Almost 80% of respondents expressed openness to dating East Asian men, citing attributes such as intelligence and family values as attractive qualities.

**Dating Barrier:** The primary challenge identified was the scarcity of opportunities to encounter East Asian men. Social circles and workplace dynamics notably influenced dating preferences,

As an Asian-American matchmaker, supporting my community and replacing false stereotypes about Asian men is of paramount importance. We cannot be limited by someone else's prejudice."

*Cassindy Chao*

overshadowing familial influence and social media. Furthermore, although a significant portion displayed openness to dating East Asian men, some expressed hesitation, indicating a crucial need for enhanced cross-cultural interaction and understanding.

#### Changing the Narrative:

The term "H.A.M.™" (Hot Asian Male) emerged from a humorous exchange during a gathering hosted by matchmaker Cassindy. This catchy phrase captures the essence of modern Asian men—intelligent, handsome,

responsible, family-oriented, and financially sound. Through numerous conversations with Asian men and women, Cassindy recognized the need to challenge stereotypes and showcase the truths of modern dating.

The survey ([full survey available here](#)) conducted by Ancient Wisdom Modern Love™ conducted by Ancient Wisdom Modern Love™ underscores a sizzling trend in modern romance: the rising appeal of East Asian men. With qualities like intelligence and family values taking precedence, these men are redefining the dating landscape. However, the challenge lies in bridging the gap and creating more opportunities for meaningful connections.

As society continues to evolve, embracing diversity and challenging stereotypes are essential steps towards nurturing fulfilling relationships across ethnic boundaries.
