

TunesKit iPhone Unlocker Upgrades to Support Multiple Languages

Whenever people forget their iPhone passcode, they can try the upgraded TunesKit iPhone Unlocker to regain access to the device easily.

KOWLOON, HONGKONG, CHINA, June 10, 2024 /EINPresswire.com/ --

Recently, [TunesKit Studio](#) has upgraded its popular iPhone Unlocker program to a new level, with multiple languages supported. Besides English, it has German, French, Spanish, Japanese, and Chinese. In addition, the software can automatically detect the current system language as the default language. By doing so, TunesKit provides more users worldwide with a better user experience.

I Forgot My iPhone Passcode? Fixed!

“

TunesKit iPhone Unlocker is a useful tool to help iOS users regain access to their devices when they forget the passcode.”

William Garcia

"[I forgot my iPhone passcode](#). What should I do?" "We received many similar questions from our customers every day," said a TunesKit spokesperson. "Forgetting your iPhone passcode can be a stressful experience, especially when your device contains important personal data," added he. That's why the [TunesKit iPhone Unlocker](#) has been developed and upgraded. The tool helps users unlock their iPhone, iPad, and iPod touch, ensuring users can regain access without too much hassle.

When users forget the passcode to their iPhone, or their device is disabled after multiple incorrect attempts, a third-party app like TunesKit iPhone Unlocker is worth a shot. It is a professional iOS unlocking tool that helps people unlock an iPhone without a passcode. Even if users don't remember the Apple ID account or password, TunesKit can easily remove the Apple ID without a password. Besides, the powerful tool can also help users get rid of Screen Time passcode, MDM lock, etc.

TunesKit works well on Windows and macOS computers and is fully compatible with all iOS

devices or versions. Here are some simple steps on how to unlock an iPhone when forgetting the passcode with TunesKit iPhone Unlocker:

Step 1: Download and install the TunesKit iPhone Unlocker on a computer and connect the iPhone to it with a USB cable.

Step 2: Click the "Unlock iOS Screen" option on the interface, and click "Start".

Step 3: Click the "Download" button to download the firmware package, then click the "Unlock" button. After a few minutes, TunesKit will successfully remove the passcode from the device.

TunesKit iPhone Unlocker Main Interface

Key Features of TunesKit iPhone Unlocker v2.6.0
