

Property Refresh Revolutionizes Commercial Window Cleaning with Innovative Techniques

New water-fed pole system and traditional hand cleaning methods set new standards for window washing excellence

BUFFALO GROVE, IL, US, June 6, 2024 /EINPresswire.com/ -- Property Refresh, a premier [window washing company](#) based [in Buffalo Grove](#), is set to transform the commercial window cleaning industry with its introduction of a state-of-the-art water-fed pole window washing system alongside traditional hand cleaning using squeegees.

window washers truck

Property Refresh has established a reputation for excellence throughout Chicago and suburbs, consistently delivering top-notch services to businesses and commercial properties. The new water-fed pole system represents a significant advancement in [the company's](#) capabilities, offering a modern solution that ensures spotless, streak-free windows with minimal environmental impact.

“

By combining this innovative technology with our traditional hand cleaning methods, we can cater to a wider range of needs and deliver exceptional results every time.”

George D

The water-fed pole system utilizes purified water to clean windows at heights up to several stories, eliminating the need for ladders or lifts. This innovative approach not only enhances safety for technicians but also improves efficiency and reduces service times. Purified water, free of any chemicals or detergents, leaves windows gleaming without the risk of streaks or residue.

In addition to the water-fed pole system, Property Refresh continues to offer traditional hand cleaning using squeegees for clients who prefer this time-tested method. The combination of both techniques allows the company to cater to a wide range of customer preferences and

specific cleaning needs, ensuring every window receives the best possible treatment.

Property Refresh's commitment to innovation and customer satisfaction is underscored by its dedication to adopting the latest industry technologies. The introduction of the water-fed pole system is a testament to the company's proactive approach to enhancing service quality and maintaining its position as a leader in the window washing sector.

Businesses in Buffalo Grove and the surrounding areas can now benefit from Property Refresh's cutting-edge window cleaning solutions, enjoying the advantages of pristine windows and improved building aesthetics. Property Refresh continues to set the standard for commercial window cleaning, ensuring that every client experiences the highest level of service and satisfaction.
