

Logistics Automation Market Soar to USD 67.5 Billion by 2031 Due to increasing demand for warehouse automation solutions

Logistics automation plays a significant role in reducing carbon emissions and energy consumption by optimizing transportation routes

AUSTIN, TEXAS, UNITED STATES, June 7, 2024 /EINPresswire.com/ -- The [Logistics Automation Market](#) size was USD 32.7 Billion in 2023 and is expected to Reach USD 67.5 Billion by 2031 with a growing CAGR of 9.5% over the forecast period of 2024-2031.

The logistics automation market is witnessing an unprecedented surge driven by the convergence of cutting-edge technologies and the pressing need for streamlined supply chain operations. Innovations in robotics, artificial intelligence, machine learning, and IoT are reshaping traditional logistics paradigms, fostering greater efficiency, agility, and cost-effectiveness. From automated warehouses and smart inventory management systems to autonomous vehicles and drones, the landscape is ripe with solutions tailored to meet the evolving demands of modern commerce. As e-commerce continues its meteoric rise, the imperative for swift, error-free deliveries has never been more pronounced, propelling the adoption of automation across the logistics spectrum. Moreover, the COVID-19 pandemic has underscored the importance of resilient supply chains, prompting businesses to expedite their digital transformation initiatives. Against this backdrop, the logistics automation market stands poised for exponential growth, offering unprecedented opportunities for stakeholders to optimize operations, enhance customer experiences, and stay ahead in an increasingly competitive landscape.

<https://www.snsinsider.com/reports/logistics-automation-market-3468>

It has segmented the global Logistics Automation market

By Component

Hardware

- Autonomous Robots (AGV, AMR)
- Automated Storage and Retrieval Systems (AS/RS)
- Automated Sorting Systems
- De-palletizing/Palletizing Systems
- Conveyor Systems
- Automatic Identification and Data Collection (AIDC)

Software

- Warehouse Management System
- Transportation Management System

Services

- Consulting
- Deployment & Integration
- Support & Maintenance

By Function

- Inventory & Storage Management
- Transportation Management

By Logistics Type

- Sales Logistics
- Production Logistics
- Recovery Logistics
- Procurement Logistics

By Software Application

- Inventory Management
- Order Management
- Yard Management
- Shipping Management
- Labor Management
- Vendor Management
- Customer Support
- Others

By Organization Size

- Large Enterprises
- Small & Medium Enterprises

By Vertical

- Retail & E-commerce
- Healthcare
- Automotive
- Aerospace & Defense
- Electronics & Semiconductors
- Others

Key Objectives of the Global Logistics Automation Market Report:

- The report conducts a comparative assessment of the leading market players participating in the global Logistics Automation market.
- The report marks the notable developments that have recently taken place in the Logistics Automation industry
- It details on the strategic initiatives undertaken by the market competitors for business expansion.
- It closely examines the micro- and macro-economic growth indicators, as well as the essential elements of the Logistics Automation market value chain.
- The report further jots down the major growth prospects for the emerging market players in the leading regions of the market
