

EDRM Congratulates its 2024 Chambers USA Legal Guide Leaders

MINNEAPOLIS, MN, USA, June 10, 2024 /EINPresswire.com/ -- Leading the way for global best practices in e-discovery, the Electronic Discovery Reference Model (EDRM) offers its congratulations to the eight EDRM leaders and two [EDRM Trusted Partners](#) who have earned Chambers Rankings in the [2024 Chambers USA Legal Guide for eDiscovery and Information Governance](#).

Privacy, security and AI enabled eDiscovery technology and services will play a central role in organizations as they strive to keep their data secure. Robust e-discovery technology, supported by expertise and services, helps organizations respond to litigation, compliance and investigation demands.

In the era of hybrid and remote work at scale, organizations need to securely manage information, protect confidential and privileged access and collaborate effectively to be efficient and productive and adhere to the increasing complex demands of security and data privacy frameworks. The ability to understand the benefits and risks of AI in the legal environment is mission critical.

“

It is exciting—but not surprising—for so many of our EDRM leaders also to be recognized by Chambers as top attorneys in the field.”

Dave Cohen, Chair of EDRM's Project Trustees.

Chambers Rankings are highly coveted, and the research process to vet the nominees is extensive, with over 58,000 data points for this year's rankings.

The EDRM community of knowledgeable, multidisciplinary professionals is building resources to enhance e-discovery, privacy, security and information governance frameworks, processes and standards.

"Chambers Rankings are an exclusive trusted third-party perspective on eDiscovery attorneys," said Mary Mack, CEO and chief legal technologist for EDRM.
