The global Sodium Caseinate Market size is expected to reach USD 7.70 Billion in 2032 registering a CAGR of 4.4%.

VANCOUVER, BRITISH COLUMBIA, CANADA, June 10, 2024

/EINPresswire.com/ -- The global [Sodium caseinate market](#) size was USD 5.09 Billion in 2022 and is expected to register a revenue CAGR of 4.4% during the forecast period. Rising product demand from the food and beverage industry, growing adoption of ready-to-drink beverages and protein enriched drinks, rising consumer awareness in health and wellness and rising demand for cosmetics and personal care products are expected to drive revenue growth of the market.

Sodium caseinate is a water-soluble salt of casein, a protein found in milk. It is commonly used in the food and beverage industry as an emulsifier, stabilizer, and thickening agent. Sodium caseinate is known for its high nutritional value, containing essential amino acids, and its excellent functional properties, including emulsification, foaming, and water-binding capabilities. This makes it a valuable ingredient in a variety of products, including dairy-based foods, processed meats, and nutritional supplements. The sodium caseinate market is driven by its broad applications in food processing, pharmaceuticals, and cosmetics, with key players like Fonterra, FrieslandCampina, and Kerry Group leading the industry.

Several factors drive the growth of the sodium caseinate market:

Rising Demand for Protein-Enriched Foods: With increasing consumer awareness of health and nutrition, there is a growing demand for protein-enriched foods. Sodium caseinate is an excellent source of high-quality protein, making it a popular ingredient in protein supplements, fortified beverages, and dietary products. This trend is particularly strong in the fitness and wellness sectors, where protein intake is emphasized.

Expanding Processed Food Industry: The processed food industry is a major user of sodium caseinate, leveraging its functional properties to improve texture, shelf life, and stability in products such as cheese, ice cream, and bakery goods. As the global processed food market continues to expand, driven by urbanization and changing lifestyles, the demand for sodium caseinate is expected to grow.

Growing Use in Pharmaceuticals and Cosmetics: Beyond food and beverages, sodium caseinate is also used in pharmaceuticals as a binder and stabilizer in drug formulations. In the cosmetics industry, it is valued for its moisturizing and film-forming properties. The expanding applications in these sectors contribute to the overall growth of the sodium caseinate market.
