About Graiver Home Construction, LLC:

Graiver Home Construction, LLC, which is also affiliated with Graiver Homes, Inc., is a local, family owned, new home builder that specializes in delivering clients the most home for their money. The principals of Graiver Home Construction, Loni Graiver and Nick Coppola, places quality first and provides a real value-added experience for their customers. Graiver Home Construction has the ability to buy land for clients without the need for them to obtain a construction loan – building and selling the home as a completed package. Since 2010 Graiver Homes has also built more residential single-family homes than anyone else in Maine. The model is simple: Build fast, build economically, accept slightly lower prices, and sell quickly. 1,100 homes later, the model continues to prove to be a winner. Maine is very unique, as it is not a large enough market to attract large, publicly traded home builders. In addition, the terrain, weather, and lack of trades offer more barriers to entry in the residential building market in Maine. Graiver Home Construction has found an ultra, unique niche as one of the only builders in the Greater Portland, Maine area who can buy lots of land in bulk and go vertical without the need for financing.
