We are thrilled to offer a platform that not only meets but exceeds the expectations of discerning diamond engagement ring buyers."

Robert Ahdoot

distinguished name in the fine jewelry industry, proudly announces the launch of its latest bridal ring collections. These stunning [new engagement rings](#) are pre-set with certified high-quality lab-grown diamonds, making the [diamond ring](#) buying process confidently convenient.

Why Lab-Grown Diamonds?

Lab-grown diamonds have the exact chemical composition and optical appearance of mined diamonds, making them un-distinguishable, except when examined by a trained

gemologist using a powerful magnifying microscope. Primary advantages of lab-grown diamonds are A: Eco-friendliness B: Ethically sourced C: Affordable 3: More available in sought-after certified high-quality, larger size diamonds.

What Makes Marvels' New Engagement Rings Unique?

Every new diamond engagement ring is crafted to be outstanding in styling, comfort and durability with unique elements that embody the engaging bride's distinct personality and taste.

Exotic Diamond Cuts. Incorporating exotic and un-usual diamond cuts such as kite, half-moon, trapezoid, shield and triangular shaped diamonds as side stones, making the engagement rings' designs more special.

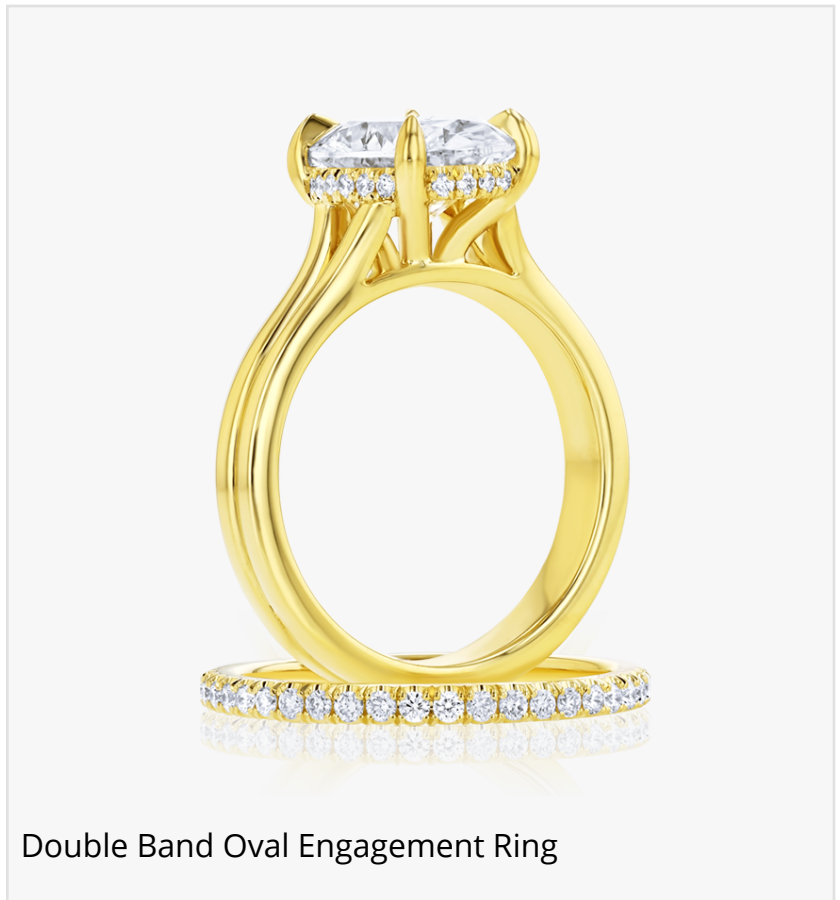

Eternity Style Bands. Engagement rings with side diamonds on their bands plus their matching wedding bands come with ³/₄ way- around pave' set round diamonds, making them appear as eternity bands, yet sizable.

Superb Comfort. Smooth, continuous edges plus comfort-fit contour on the inside, make the engagement rings and their matching wedding bands comfortable for everyday wear.

Lustrous Finishing. Rings' parts are individually cleaned and polished prior to hand assembly, ensuring optimal luster in the finished product.

Budget Friendly. Most designs come in multiple versions and diamond sizes, so the couple's spending budget will not be an issue at time of purchase.

Multi-Color Metals. Incorporating white, yellow and rose color gold in rings' designs, makes them more colorful, exclusive and easier to match with buyers' existing jewelry.
