ANY.RUN TI Feeds can be integrated with existing Security Information and Event Management (SIEM) and Threat Intelligence Platform (TIP) systems. The feeds share data in the standardized STIX format, making them compatible with virtually any vendor, including popular platforms like OpenCTI and ThreatConnect.

ANY.RUN TI Feeds provide a rich source of malicious IPs, URLs, and domains, all meticulously collected and pre-processed from millions of analysis sessions in our sandbox environment. This threat data can significantly extend the coverage of SIEM and TIP systems, offering Indicators of Compromise (IOCs) of recently discovered malware.
