His unique experience makes him the ideal fit to grow FTD solutions' presence in semiconductor, food and beverage, and pharmaceutical manufacturing facilities, among others." Slava Libman, CEO and cofounder of FTD solutions As Director of Business Development, Daniel will oversee customer acquisition, research markets, develop sales strategies, build customer relationships, and manage FTD solutions' sales force.

"We're excited to have Jay on our team," said Slava Libman, CEO and co-founder of FTD solutions. "His unique experience makes him the ideal fit to grow FTD solutions' presence in semiconductor, food and beverage, and pharmaceutical manufacturing facilities, among others."

Daniel specializes in enterprise SaaS sales management,

taking on roles in marketing, relationship management, and business strategy. Aligned with FTD solutions' values, he brings extensive business development and sales experience in <u>water</u> <u>technology</u> and software applications.

"FTD solutions is a great match. Their mission to aid industries in comprehensively tackling industrial water usage and their human approach to SaaS stood out to me," stated Daniel. "These tools have the potential to disrupt global water management. I look forward to an exciting future with FTD." FTD solutions' Water Management, Ultrapure Water, and Facility Management applications have significantly impacted its customers' water consumption and budgets. Water-intensive industries adopting these applications have recouped savings of \$60 million in annual operational costs, standardized efficiency policies across facilities, and increased reclaimed water use by up to 125 percent.
