

SGS Opens New Furniture Testing Laboratory in Guadalajara, Mexico

EAST SUSSEX, UNITED KINGDOM, June 13, 2024 /EINPresswire.com/ -- SGS, the world's leading testing, inspection and certification company, has expanded its consumer product testing capabilities in Mexico with the opening of a new furniture testing laboratory in Guadalajara.

The state-of-the-art facility spans 1,200 m² and provides comprehensive testing solutions for domestic, commercial, upholstered and outdoor furniture. Its scope covers safety and stability testing, alongside physical and mechanical testing for ageing, textile and finishing requirements; ensuring products meet stringent US standards.

Luis Julián Molina Rodríguez, Connectivity & Products Director in Mexico said: "We are delighted with the opening of our new furniture testing lab which demonstrates our commitment to supporting the Mexican furniture industry to increase competitiveness and accelerate routes to new international markets.

"Our local experts look forward to working in partnership with manufacturers, retailers and buyers to ensure well-designed, functional, durable and safe products, conforming to recognized regional, national and international standards, reach the consumer."

Strategically located to address the increasing trend of nearshoring, the new facility complements SGS's existing capabilities in Naucalpan, near Mexico City which provide:
