Homeopathy is a therapeutic and alternative medicine approach that claims to boost healing responses to diseases by providing chemicals that imitate disease symptoms in healthy people. It is used to treat an extremely wide range of conditions, including physical conditions and psychological conditions. It depends on the concept that the body can heal itself.

The types of homeopathies are dilutions, tinctures, biochemists, ointments, tablets, and others. Dilution refers to the process of systematically reducing the concentration of a substance through successive mixing and shaking. The sources involved are plants, animals, and minerals, and are distributed by homeopathic clinics, retailers, e-retailers, and other distribution channels for analgesic and antipyretic, respiratory, neurology, immunology, gastroenterology, dermatology, and others.
