Medical equipment rental refers to the service of providing assets like infusion pumps and other medical equipment on a rental basis to lenders such as hospitals, clinics, and other healthcare partners. It allows the customer to choose which store to visit, browse through the store, and place an order for the required medical equipment.

The main types of equipment included in medical equipment rental are personal or home care equipment, electronic or digital equipment, surgical equipment, durable medical equipment, long-term care, acute care, emergency and trauma care, and storage and transport. Personal home care equipment refers to medical equipment to assist seniors and other individuals who need assistance with their activities of daily life, such as bathing, moving around, using the toilet, eating, and walking. These are used by several end-users, such as hospitals, personal or home care, institutional care, and others.
