With the largest revenue share in 2022, North America is expected to continue to dominate the behavioral health market during the forecast years. This can be attributed to a number of factors, including a large patient population, a strong presence of key players, easy access to services, a well-developed healthcare infrastructure, favorable reimbursement policies within the healthcare system, and a higher number of research and development projects. Nonetheless, due to a rise in awareness of various behavioral health illnesses and an increase in the number of afflicted people, Asia-Pacific is predicted to expand at the fastest CAGR.
