

New EMSCUPLT “Beach Body Ready” Service to be launched in Hampton Roads and Williamsburg From D and S Wellness

Being so called “Beach Body Ready” used to be the domain of endless “Gym Bunnies” or “Power Lifting obsessives” but not any longer.

WILLIAMSBURG, VIRGINIA, USA, June 14, 2024 /EINPresswire.com/ -- A new “[Beach Body Ready](#)” Service using [EMSCULPT](#) is being launched in Hampton Roads and Williamsburg on 15th June 2024 by D and S Wellness.

Being so called “Beach Body Ready” used to be the domain of endless “Gym Bunnies” or “Power Lifting obsessives” but not any longer. With a little bit of effort and now a little bit of assistance from the right partners, this sort of idealised perfection is now within the reach of everyone. This is now made easier by using a new Technological Service called "EMSCULPT"

What is EMSCUPLT?

EMSCULPT is a nonsurgical treatment that normally lasts 30 minutes. There is absolutely no downtime. While lying down, EMSCULPT paddles are placed on the targeted muscle region, causing electromagnetic pulses to elicit muscular contractions. Contractions strengthen and tighten muscles, and increased muscle activity burns fat.
