## Find Your Light

### Theaterism –

It's time.

Time for you to make your entrance. You've rehearsed long and hard for this moment. So, make the most of it. As you step onto the stage, be aware of your surroundings.

There is always a "hot spot" on stage where the lighting is best. 'Find your Light' is an instruction to position yourself on stage to be properly illuminated by the stage lighting. You can feel the warmth of the stage light when you're in just the right spot.

We're not talking here about the spotlight. We're talking about the subtle space on stage that is lit for the audience to best see what's going on.

Stage lighting is very intentional – shadows and light help to tell the story. This is why it's so important to know where the light is. Most of the time, you should seek out and be in the light.

### Life Lesson –

The "light" you must find is YOU, your purpose, your role. Find yourself. Be yourself. You are unique. You are special. You deserve to be the featured player in your life, and you have a role to play in the lives of others.

After all, you are, indeed, a part of everything that's going on in this stage of life. Play your role in the light for everyone to see.

It means to discover and pursue your passions or purpose in life. It involves identifying what brings you joy, fulfillment, and a sense of meaning and direction.

Once you have found your light, you can use it as a guiding force to help you achieve your goals and live your best life.
