Increasing Prevalence of Cervical Cancer Fuels Market Expansion

The rise in cervical cancer cases is a significant driver of the HPV testing and Pap test market. Early detection through these tests is crucial in controlling the spread of cervical cancer. According to the American Cancer Society, cervical cancer is expected to account for approximately 13,960 new cases and 4,310 deaths in the US in 2023. This growing

prevalence underscores the importance of HPV and Pap tests in early cancer detection and prevention, thereby propelling market growth.
