Rising Student Enrollment Propels Market Growth

The increasing student enrollment is a significant factor contributing to the growth of the admission management software market. This software streamlines the application process, reducing paperwork and enhancing convenience for both students and administrators. For instance, according to the United States Census Bureau, total enrollment in U.S. schools rose by 1.3 million from 2021 to 2022, reaching 75.2 million students. This surge in student enrollment underscores the need for efficient admission management solutions.
