Same day delivery services are being deployed across numerous countries so as to ensure the timely delivery of products to the end users. Moreover, the demand for same day delivery services has increased due to the fact that the consumers are ready to spend any amount in

order to get the product in a shorter time span. Also, due to this increased demand for quick availability of products, companies have entered into strategic alliances so as to ensure the timely delivery of products, which has also supplemented the growth of the global market.

Efficient and continuous services are required by customers in the goods transportation industry, which enable the operating companies to enhance their services as per the demand. This provides a lucrative growth opportunity for the market players as well as supports the market toward a positive growth.

XPO Logistics, Inc., USA Couriers, Inc, A1-SameDay Delivery Service, Inc., DHL International GmbH, Aramex International Services LLC, Dropoff, Inc, FedEx Corporation, Jet Delivery, Inc., Power Link Expedite Corporation

Factors such as development of the e-commerce industry and increase in trading activities due to globalization provides lucrative opportunities for the growth of the same day delivery market. However, poor infrastructure & higher logistics costs and lack of control of manufacturers & retailers on logistics service are the factors that hamper the growth of the same day delivery market. Meanwhile, emergence of last mile deliveries coupled with logistics automation and cost cutting & lead time reduction due to adoption of multi-modal system are the factors that are expected to provide opportunities for the growth of the global same day delivery market in the near future.

The global same day delivery market is analyzed across application, mode of transportation, end user, and region. Based on mode of transportation, the roadways segment accounted for more than two-fifths of the total market share in 2019, and is expected to dominate by the end of 2027. The same segment would also register the fastest CAGR of 22.3% during the forecast period.

Based on region, Asia-Pacific held the major share in 2019, garnering nearly one-third of the global same day delivery market. The market across North America, on the other hand, would cite the fastest CAGR of 22.6% from 2020 to 2027. The other regions studied in the report include Europe and LAMEA.
