Definition:

Vegan marshmallows are a type of marshmallow that is made without using any animal-derived ingredients. Traditional marshmallows typically contain gelatin, which is derived from animal collagen. However, vegan marshmallows are crafted using plant-based alternatives to gelatin and other animal products, making them suitable for people following a vegan or vegetarian diet, as well as those with dietary restrictions. Vegan marshmallows can be used in various ways, just like traditional marshmallows. They can be enjoyed in hot chocolate, roasted over a campfire, used in baking, added to desserts, and more. As the demand for plant-based and vegan options continues to grow, more companies and individuals are developing and experimenting with vegan marshmallow recipes to create products that align with ethical and dietary choices.
