Canned Vegetable Global Market Report
2024 – Market Size, Trends, And Market
Forecast 2024-2033*

LONDON, GREATER LONDON, UK, June 19, 2024 /EINPresswire.com/ -- The canned vegetable market is projected to grow from \$21.96 billion in 2023 to \$23.06 billion in 2024, at a CAGR of 5%.

This growth is driven by consumers seeking more diverse flavor profiles and ethnic cuisines, a rising demand for premium and organic canned vegetables, the growing popularity of plant-based diets, consumers increasingly looking for healthier food options, and a rise in demand for convenience foods. The market is anticipated to reach \$28.36 billion by 2028, at a CAGR of 5.3%.

Rise in Packaged Food Consumption Fuels Growth of
Canned Vegetable Market

The rise in the consumption of various packaged food products is expected to propel the growth of the canned vegetable market. Packaged food refers to items processed, preserved, and sealed in packaging for

convenience, preservation, and distribution, often including various pre-cooked or ready-to-eat meals, snacks, and ingredients. Consumption of packaged food products is on the rise due to changing lifestyles, convenience demands, and the globalization of food markets, offering diverse options to consumers seeking quick and easy meal solutions. Canned vegetables simplify meal preparation and enhance flavor profiles.

Canned vegetables refer to vegetables that have been processed, cooked, and sealed in airtight containers for preservation. This method involves heating the vegetables to a high temperature to kill bacteria and enzymes, thereby extending their shelf life. The canning helps to retain nutrients and flavor, making these vegetables convenient and accessible for consumption at any time. The main types of the canned vegetable market are sliced, peeled, and other types. Canned vegetables are cut into thin, flat pieces, usually uniform in shape and size, ready to be used directly without further chopping. The various distribution channels include store-based and non-store-based used for various applications such as culinary, salads and soups, toppings and dressings, and others.
