

Global Cardiovascular Health Supplements Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's Cardiovascular Health Supplements Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, June 19, 2024 /EINPresswire.com/ -- The global cardiovascular health supplements market is projected to grow from \$11.67 billion in 2023 to \$13.11 billion in 2024, at a CAGR of

12.3%. This growth can be attributed to the shift towards less invasive surgical techniques, the demand for structural heart devices, ongoing training and education programs for healthcare professionals, rising healthcare expenditure, and increased awareness of heart health. By 2028, the market is expected to reach \$20.98 billion, growing at a CAGR of 12.5%, driven by the

The Business Research company

increasing aging population, growing awareness about heart health, the implementation of screening programs, favorable reimbursement policies for structural heart procedures, and timely regulatory approvals.

Rising Prevalence Of Heart-Related Diseases Fuels Growth In Cardiovascular Health Supplements Market
The increased prevalence of heart-related diseases is

expected to propel the growth of the cardiovascular health supplements market going forward. Heart-related diseases, also known as cardiovascular diseases (CVD), refer to disorders affecting the heart and blood vessels. The prevalence of heart-related diseases is increasing due to lack of physical activity, unhealthy diet, smoking, and chronic stress. Cardiovascular health supplements contain ingredients and nutrients supporting heart function, especially in individuals with heart failure or other heart conditions.
