Rapid Market Growth Forecasted

The [pharma and biotech CRM software market size](#) is projected to grow from \$6.26 billion in 2023 to \$7.39 billion in 2024, at a CAGR of 18.1%. The market is expected to reach \$14.46 billion by 2028, growing at a CAGR of 18.3% during the forecast period. This growth can be attributed to the increasing adoption of AI-powered customer insights, expanding virtual engagement solutions,

integration with the healthcare ecosystem, and emphasis on compliance and data security.

Emphasis on AI-Powered Customer Insights Drives Market Expansion

The growing emphasis on AI-powered customer insights is a significant factor propelling the pharma and biotech CRM software market. AI enables personalized engagement with healthcare professionals (HCPs) and patients, delivering targeted messaging and improving customer relationship management. For instance, Salesforce, Inc. launched its life sciences cloud in October 2023, enhancing patient engagement and clinical operations through data-driven automation and AI.
