

Revo Announces World's First AI Product Manager

Revolutionizing how teams build and manage products with the first dedicated Product Agent

SAN FRANCISCO, CALIFORNIA, UNITED STATES, June 20, 2024

/EINPresswire.com/ -- Revo announces the world's first AI product manager, promising to revolutionize the way product teams work by combining the strengths of human creativity and artificial intelligence.

"Revo was born out of a deep understanding of the challenges product teams face daily," said Mehdi Djabri, Co-founder and CEO of Revo.

"As a former Chief Product Officer, I've experienced firsthand the struggle to balance impactful and strategic initiatives with routine tasks, make data-driven decisions, and deliver exceptional products. Revo addresses these pain points head-on, empowering teams to unlock their full potential. It's like having a tireless, data-driven copilot by your side, helping you navigate the

complexities of product management and execute at the highest level."

“

Revo allows product leaders to increase their scope and impact and benefit from truly superhuman awareness."

Mehdi Djabri

actionnable insights from multiple sources.

- Effortlessly manage sprints, ensuring optimal resource allocation and on-time delivery.

Mehdi Djabri, CEO of Revo, introducing the world's first AI Product Manager to an audience of product leaders in San Francisco

With Revo, product teams can:

- Leverage proactive, data-driven insights from multiple sources to make informed strategic decisions.

- Automatically manage user feedback and extract key

- Streamline roadmap planning and execution with intelligent, actionable recommendations.
- Assist in product management tasks such as writing PRDs, user stories, and managing the product backlog.
- Conduct comprehensive market research and competitive analysis to identify opportunities and maintain a competitive edge.
- Continuously learn and adapt to evolving team needs and product goals.

Who is Revo for?

Whether you have an established PM team that could benefit from an AI PM or you're a startup without a dedicated PM, Revo can adapt to your needs. It can complement an existing PM team, supercharging their capabilities, or act as a standalone PM for teams that don't have one, ensuring that the product development process is data-driven, efficient, and customer-centric.

Revo's Human/AI Hybrid approach amplifies human creativity, domain expertise, and strategic vision with unparalleled insights, efficiency, and scalability of AI. The result? A new breed of super-powered product managers who can drive unparalleled innovation and deliver exceptional products.

"Revo is here to augment and empower human product managers, not replace them," emphasized Mehdi Djabri. "By leveraging the strengths of both humans and AI, we can unlock new levels of productivity and innovation, and ultimately build products that truly delight and inspire."

Industry endorsements:

"I had the privilege of getting a sneak peek at Revo, and I believe it's going to be a game-changer. Revo will augment us PMs, enabling us to operate at a completely new level. It's truly exciting to imagine the elevated impact and expanded scope it will unlock." - Morgan David de Lossy, Principal Product Manager at Adobe

"For small teams like ours that don't really see the need for an embedded PM yet, using an AI like Revo to enable all team members to do Product Management is key." - David Okuniev, Co-founder Typeform/Float

Security and Compliance:

Security and compliance are non-negotiable for Revo. With enterprise-grade security features and full certification by independent third-party auditors, Revo maintains the highest standards of data protection, privacy, and confidentiality. SOC 2 Type II, ISO 27001, and ISO 27701 compliance ensure that teams can innovate with confidence.

How to get exclusive access:

Each month, Revo's team onboards a select few teams as part of their First-Mover Cohorts, offering a personalized, white-glove onboarding experience. This includes custom setup, comprehensive data integration, workflow integration, and ongoing access to its full suite of AI product management capabilities.
