

# HR Payroll Software Market Size, Share, Revenue, Trends And Drivers For 2024-2033

*The Business Research Company's HR Payroll Software Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK, June 20, 2024 /EINPresswire.com/ -- The [HR payroll software market](#) has

experienced rapid growth in recent years, expanding from \$31.22 billion in

2023 to \$35.27 billion in 2024, marking a compound annual growth rate (CAGR) of 13.0%. This growth can be attributed to increased automation in payroll processing, the adoption of cloud-based solutions, emphasis on employee self-service, data security measures, and the integration of biometric authentication technologies.

Anticipated Growth Driven by Technological  
Advancements

The HR payroll software market is projected to continue its robust growth, reaching \$57.99 billion by 2028, with a CAGR of 13.2%. Key factors driving this growth include the increasing adoption of artificial intelligence (AI), blockchain technology for enhanced security, real-time payroll reporting, and the rising utilization of chatbots and virtual

assistants for employee support. The demand for customizable payroll solutions is also expected to contribute significantly to market expansion in the forecast period.
