DrawScene is tailored to meet the needs of insurance companies, attorneys, and private individuals, offering a user-friendly interface and advanced features to simplify the process of documenting crash scenes. With DrawScene, users can effortlessly generate precise diagrams for insurance claims and legal incident reports, ensuring accuracy and clarity in every case.

DrawScene is a game-changer for anyone needing to document crash scenes quickly and accurately on a short-term basis.”

Joe Cucchiari, EVP of Trancite

“DrawScene is a game-changer for anyone needing to document crash scenes quickly and accurately on a short-term basis,” said Joe Cucchiari, EVP of Trancite. “We recognized a gap in the market for a tool that provides the same level of precision and ease of use traditionally available only to law enforcement. DrawScene addresses

this need, offering an accessible and reliable solution for our customers.”

Key features of DrawScene include:

- Instant Diagram Creation: Users can quickly create detailed and accurate diagrams of crash

scenes.

- User-Friendly Interface: Designed for ease of use, DrawScene requires no prior experience in diagramming.
- Comprehensive Toolset: Includes a variety of templates and symbols to represent vehicles, road conditions, and other crucial elements.
- Versatility: Ideal for insurance claims, legal reports, and personal documentation and can easily be exported for use.

DrawScene is now available for use on a 24 or 72-hour initial basis with the ability for extension if needed. You can learn more, see examples, and create diagrams directly from the [DrawScene website](#).
