The DSW Enterprise AI Symposium 2024 brings together AI leaders and visionaries for an evening of transformative insights and strategic talks. The line-up of talks will deliver insights into how Ireland's prominent companies are innovating with AI, successfully building and scaling AI-enabled use cases, and redefining their business trajectories. Attendees can expect some compelling sessions designed to delve deep into AI.

Event Highlights:

- Keynote: Kick off the event with visionary perspectives on the future of AI from DSW leaders.
- Speaker Sessions: Gain rapid-fire insights from renowned AI pioneers across diverse industry sectors, sharing their experiences and strategies.
- Panel Discussion: Explore the critical role of AI adoption in fostering business growth and enhancing strategic frameworks.
- Open Forum: Engage in dynamic discussions and share insights on the evolving landscape of AI

technologies.
- Closing Remarks and Networking: Reflect on key takeaways and strategic imperatives, and connect to explore collaborative opportunities.

The symposium is set to feature some top voices of AI in Ireland, including experts renowned for their contributions to AI-driven innovation and business transformation. "At this AI Symposium, we come together to strengthen the data science and AI community, leveraging enterprise insights to foster innovation and skill growth in the evolving Irish market," says Sandeep K, Founder and CEO of DSW. Echoing the sentiment, Pritesh Tiwari, DSW's Founder and Chief Data Scientist, adds, "We are bringing together the brightest minds in AI to drive innovation and propel businesses forward. Harnessing the power of AI is essential for unlocking new potentials and transforming industries".
Limited Availability Event:
