In general, Capsule Edits include a thematic inspiration as well as tile and accessories that tell the story of that theme. Capsule Edits are further broken down into three categories in order to better relate to their specific

intended audience: Home Edits, Commercial Edits, and Contractor Edits. While these individual Capsule Edits are all related in the overall aesthetic and theme they present, the curated products within each are specifically tailored to the application needs of that audience. For example, the Contractor Edits contain grout, paint, and finishing options available with short lead times to simplify design.
