“

Tetris is not only a game but an inexhaustible source of inspiration. Each and every artwork in this exhibition portrays the essence of the game and its influence in our lives”

Francisco Cerón

Francisco Ceron, a prolific and versatile Colombian artist, is well known for his work in Pop Art and his ability to intertwine art, emotions, and technology. His work ranges from traditional painting to the most advanced digital techniques, creating a fusion that brings his compositions to life. In this exhibition, Ceron will present artwork inspired by Tetris, highlighting the influence of the game in pop culture, urban art, comics, and contemporary art.

“Tetris is not only a game but an inexhaustible source of inspiration. Each and every artwork in this exhibition portrays the essence of the game and its influence in our lives,” Francisco Ceron commented. “This collection celebrates the creativity and joy that Tetris has brought to millions of people around the world.”

The exhibition is an art show that will present visitors with varied points of view of Tetris according to each artist, highlighting the game's impact on the modern world and contemporary art, celebrating its legacy as a cultural phenomenon. This event is a must-see for art lovers and Tetris fans alike. Don't miss this extraordinary artistic exhibition.
