

The Fall Of Aether Station, A Rogue-lite Space Tower Defense, Set To Release July 25th

Customize Ships, Upgrade the fleet, and Command them to victory in this ruthless rogue-lite tower defense/real time strategy hybrid.

CHICAGO, IL, UNITED STATES, June 25,

2024 /EINPresswire.com/ -- Nibble & Byte are proud to announce that The

[Fall of Aether Station](#) is releasing July

25th. Updated and looking better than

ever, it will be the best version of itself that it can be upon its 1.0 release. Players will fight hordes of alien ships, including a new swarmer enemy type. Adapt to dynamic battlefields with increasingly stronger enemy ships.

Defend Aether Station in this rogue-lite tower defense game

“

We have been spending a lot of time with our playtesters and fans. With all the feedback we got from the demo, we feel we have created something truly special and can't wait to share it with you all!”

*Jake, Creative director of
Nibble & Byte.*

Take on a True Rogue-lite Tower Defense Experience With These Updates:

- The shipyard screen has been reworked to make stats more clear and trade offs between choices readily available.
- New enemy type added that will spawn behind player defenses and keep even the most strategic minds on edge.
- Tutorial has been streamlined to demonstrate key features without holding the player's hand too much.
- Whether players prefer to move with right click like in RTS

games, or left click. Players can also switch between the two at any time!

- A legendary ship that unlocks at the end of each ship tech tree.

The full game, set to release July 25th, will include 15 levels each with 60 initial waves with an endless mode to follow post launch. Utilize a wide array of customizable ship classes, each with its own strengths and abilities, and hundreds of upgrades. Experiment with different combinations of weapons to develop the ultimate defense strategy to outsmart foes. In addition to the 1.0 build, the free demo has also been updated include quality of life updates. The tutorial

has been improved with rebalanced combat, control preferences, a beautiful new UI, a new enemy type, many bug fixes.
