

# Pineapples market growth analysis with investment opportunities

*The Business Research Company's Pineapples Global Market Report 2024 – Market Size, Trends, And Forecast 2024-2033*

LONDON, GREATER LONDON, UK, June 24, 2024 /EINPresswire.com/ -- The pineapples market has experienced robust growth in recent years, expanding from \$25.32 billion in 2023

to \$27.00 billion in 2024 at a compound annual growth rate (CAGR) of 6.6%. The growth in the historic period can be attributed to increasing awareness of the health benefits associated with pineapple consumption, rising disposable incomes, a rise in government support, and shifting consumer preferences towards healthy and natural food options.

## Growth driver of the pineapples market

An increasing vegan and flexitarian population is expected to propel the pineapples market going forward. The vegan population refers to individuals who abstain from consuming animal products entirely, including meat, dairy, and eggs. Flexitarians primarily follow a vegetarian diet but occasionally consume meat or fish in moderation. The surge in vegan and flexitarian

populations is due to growing concerns about animal welfare, health considerations, and the availability of a wider variety of plant-based food options, fueling demand for alternative agricultural products. Pineapples are valued in vegan and flexitarian diets for their versatility as a flavorful ingredient in savory and sweet dishes, providing a delicious and plant-based option for diverse culinary preferences.
