

Cyntexa's Cloud Solutions: Charting the Path to Industry Digitalization

At the heart of digital excellence lies the art of integrating technology into business strategy, revolutionizing how we work, serve customers, and innovate.

SAN FRANCISCO, CALIFORNIA, UNITED STATES, June 24, 2024

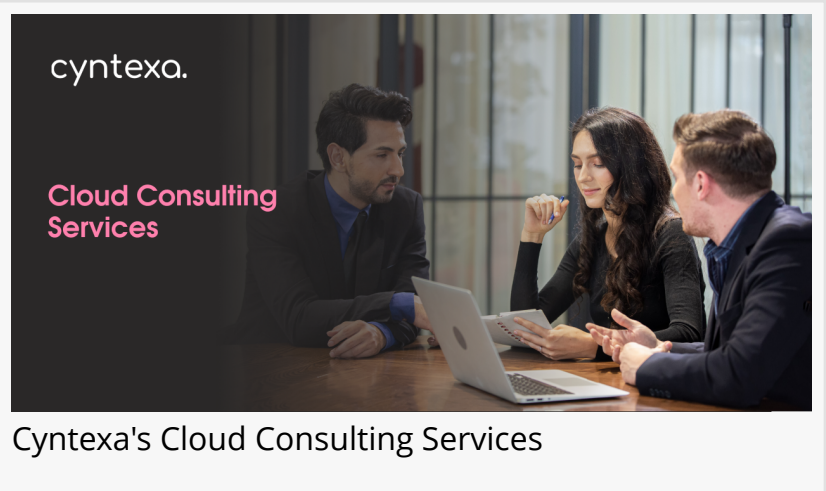

/EINPresswire.com/ -- In a bold move towards industry transformation, [Cyntexa](#) announces the launch of their industry-revolutionizing [Cloud Consulting Services](#), aimed at

contributing to digital landscapes worldwide. With this visionary approach, leaders at Cyntexa are setting new benchmarks in business efficiency, customer engagement, and technological advancement across different industries.

This move extends Cyntexa's expertise beyond CRM consulting to encompass industry-leading platforms like ServiceNow, Google Cloud Platform (GCP), Microsoft Azure, and Amazon Web Services (AWS). These clouds are chosen based on the current market dynamics and a vision that has led to empowering businesses in different sectors and designing a solution that fits right into every unique business model.

Cyntexa's new family of [Cloud Computing Consulting Services](#) delivers comprehensive solutions designed to cater to distinct technical needs including:

- Cloud Transformation to help organizations smoothly adapt to the new norms of their cloud platform, simultaneously improving scalability and performance
- Cloud Application Development focuses on building and deploying custom applications
- Cloud Migration ensures a seamless transmission of data and applications to the cloud, minimizing downtime and disruptions
- Cloud Data Security provides robust measures to protect sensitive information
- Cloud Analytics & AI harnesses data insights and artificial intelligence for informed decision-making
- Cloud Managed Services offer ongoing support and maintenance to ensure regular cloud optimization, performance checks, and reliability

To accommodate various business needs, Cyntexa offers major cloud deployment options, including Public Cloud, Hybrid Cloud, and Multi-Cloud environments:

- Public Cloud solutions are mostly managed by third-party providers but are cost-effective, scalable and with right expertise can reap hundreds of benefits.
- Hybrid Cloud is the combination of on-premises infrastructure with cloud services, which brings in flexibility and control.
- At last, multi-cloud deployment leverages multiple cloud services from different providers, ensuring redundancy and no room for potential breaches.

These diverse options empower organizations to adopt cloud solutions with confidence tailored to their unique operational requirements.

CEO and Founder of Cyntexa said, "Our expertise in CRM Consulting has played an integral role in Cyntexa's success, helping us become a leading service provider in the industry. Since technology isn't restricting itself from its growth then why should we? By introducing Cloud Consulting Services, we are aiming at upscaling our cloud offerings and upskilling our teams, giving our clients access to the best."

He further said, "A Customized cloud platform designed with future-proof strategies, a team of reliable cloud experts for handling implementation and integration and a one-stop shop for custom solutions that tackle your specific business challenges and prepare you for the future. That's the Cyntexa experience we're building for you. We understand how important these platforms are for creating a strong foundation for innovative solutions that truly benefit your business. And we're committed to continuously growing our services to bring you even more valuable services into our portfolio."

With a proven track record of delivering over 700 successful projects across various industries, Cyntexa has earned the trust of more than 500 clients worldwide since its inception in 2018. Companies such as Solar Mission, Rently, Médecins Sans Frontières, University of Maryland, and Hunter Communications have benefited from Cyntexa's expertise in cloud computing consulting services.

By partnering with such experts, businesses can leverage pre-built functionalities while also customizing and configuring the platform for new applications, integrations, and automated workflows. With Cyntexa, clients get the best of both worlds: robust, pre-built capabilities seamlessly integrated with bespoke solutions that drive tangible business results.

ABOUT CYNTEXA

Since its founding in 2018, Cyntexa has rapidly established itself as a global leader in cloud computing consulting services. With a client base spanning the UK, USA, UAE, Australia, Singapore, and India, Cyntexa is renowned for its certified cloud experts who excel in designing,

integrating, and implementing bespoke multi-cloud solutions across various industries.

Fueled by a dedication to innovation and client success, Cyntexa is poised for continued growth as a top consulting and development firm. Their commitment to customer satisfaction and delivering exceptional solutions remains at the forefront of their operations.
